

Plate Processor 85				Maintenance Chart				
▼ OPERATION	SECTION ►	Pre-heat	Pre-wash	Developer	Wash	Gum	Dryer	Cleaning Time
1. Check the replenisher container.				Daily		Daily		~ 2 min.
2. Check the waste container.				Daily				~ 2 min.
3. Safety check of the mechanical components.		Daily						~ 5 min.
4. Clean the transport rollers from residues.		Daily						~ 5 min.
5. Check the developer level.				Daily				~ 5 min.
6. Change the water and clean the section.			Daily 2)		Daily 2)			~ 10 min.
7. Change the chemistry/filter (optional).				1)				~ 30 min.
8. Main cleaning: Pre-wash 3) a. Clean the brush roller. b. Clean the tank with the "PROCESSOR CLEANER". c. Clean the tubes and drain with backflush.			By chemistry change					~ 1 hour
9. Main cleaning: Dev 3) a. Clean all rollers and guides. b. Clean the tanks with the "PROCESSOR CLEANER". c. Clean the spray tubes with brush. d. Clean the tubes and drain with backflush.				By chemistry change				~ 1 hour
10. Main cleaning: Wash 3) a. Clean the brush roller. b. Clean the tank with the "PROCESSOR CLEANER". c. Clean the tubes and drain with backflush.					By chemistry change			~ 1 hour
11. Main cleaning: Gum 4) a. Flush the gum pumps and solenoid. 4) b. Clean the rollers. c. Clean the tank with the "PROCESSOR CLEANER". 4)						By chemistry change		~ 1 hour
12. Cleanining of circulation pumps. 5)			Every 3 months					~ 5 min.
13. Cleanining of replenish pumps. 5)				Every 3 months		Every 3 months		~ 15 min.
14. Install Preventive Maintenance Kit Minor (bearings - O-rings - V-seals). 6)		Every year or 500 hours						~ 1 - 2 hours
15. Install Preventive Maintenance Kit Medium (gears - bearings - V-seals - poppet valves - guides - bushings - pump head). 7)		Every 2 years or 1,000 hours						~ 3 - 4 hours
16. Install Preventive Maintenance Kit Major (gears - bearings - guides). 8)		Every 4 years or 2,000 hours						~ 5 - 6 hours
